Course board meeting: Minutes

Course name:	Linear and integer optimization	*Programme owning the course:*	Engineering mathematics and computational science, Master's programme
Course code:	MVE166	*Programme code:*	MPENM
Academic year:	2022-2023	*Department instructing the course:*	Mathematical Sciences
Study period (start):	SP4	*The program's Director of Studies/Education officer:*	Håkan Andreasson
Study period (end):	SP4	*Date:*	2023-10-20

Fill in all the fields above. Select academic year, study periods, programme, programme code, department, and date from the respective drop-down menu.

Meeting participants: Håkan Andreasson (Master program director)

Ann-Brith Strömberg (Examiner)

David Selin (Student)

Keeper of the minutes: Håkan Andreasson

A joint meeting has been held for the following courses: -

Summary

Respondents: 75. Answer count: 14. Overall impression: 3.9 (mean) 4.0 (median)

The course worked well. The students were in particular happy with the projects.

Suggestion for improvements. There is some overlap between this course and the course non-linear optimization (TMA947) which affects a number of students but not all of them. There is a plan trying to separate the material in TMS166 and TMA947. Hopefully this is implemented until next year.

Prerequisites and learning outcomes

-

Learning, examination, and course administration

-

Work climate

-

To keep for next course round
